COMPANY PROFILE INTRODUCTION 企业简介

佛山市禅城区裕丰塑料五金厂,座落于广东省佛山市禅城区南庄罗格围仔工业开发区。本厂自成立以来便致力于塑垫系列产品的研制和开发,经过十多年不懈努力,现已成为一家专业技术力量雄厚,拥有先进生产设备和精湛制作工艺的生产型企业。

根据社会经济发展之需要及现代人的生活需求,本厂对市场进行深入的分析,并引进国外先进生产技术和制作工艺,不断开发符合市场需求的各种款式塑垫产品,以满足不断变化的市场需求及现代人日益提高的生活标准。本厂从原材料的选购、各生产工序到产品的出厂均经过严格的质量检测,以保证质量稳定。"以市场为导向,以品质为信誉"一直是本企业所坚守的经营之道。裕丰塑料五金厂已逐步建立起一套完整的销售网络。不仅在国内市场享有美誉,产品还远销海外。

雅洁丽高分子软垫产品系列,是创新性的环保、健康垫材,适应于制作各类家居、酒店、学校、医院床垫及轮椅坐垫、汽车坐垫、沙发坐垫、座椅坐垫、户外坐垫等。

裕丰塑料五金厂将继往开来,持续创新,不断研发各类适合人们生产生活所需之产品,诚邀各地客商加盟,携手共创美好明天!

Foshan Chancheng Yufeng Plastic hardware factory, located in Luoge weizai Industrial Development zone, Nanzhuang town, Foshan city, Guangdong province, China. Since establishment, we have been dedicated ourself to the research and development of all kinds of plastic mats and cushions. After more than ten years development, our factory has become a professional and strong technical force with advance production equipment market-oriented enterprise.

Base on the needs of economic development and modern people's life, we conduct in-depth market research, and introduce foreign advanced production technology to constantly develop a variety of plastic mats and cushions in line with the ever-changing market demands and people's increasing standard of living. From the purchase of raw material, the production process, to the final products out of the factory have to undergo a rigorous quality inspection to ensure quality." Market-oriented and Quality reputation" has been adhered to the enterprise business management. Foshan Chancheng Yufeng Plastic hardware factory has gradually established a comprehensive distribution network. Not only enjoy a good reputation in the domestic market, the product is also sold oversea.

YAJIELI macromolecule cushion is a revolutionalry product replacing traditional mattress and cushion materials. It is suitable to make various types of home mattress, hotel mattress, schools mattress, hospitals mattress and sofa cushion, wheel chair cushion, car seat cushion, outdoorseat cushion.

We will continually innovative, research and develop various plastic mat products and macromolecule cushions to meet the needs for people's living. We welcome customers from all over the would to cooperation with us, join hand to create a better tomorrow.

macromolecule cushion 雅洁丽高分子垫

◎产品结构

雅洁丽高分子垫--依据人体工程学原理设计,采用环保高分子材料EVA制造,高分子材料丝融合形成3-D网状结构,采用无接点的缠绕方式和拉网式支撑,能同时形成坚固耐用的表面和弹性十足的内部网状结构,起到均衡承托人体的作用,完全顺应人体曲线,为您创造自然、舒适、健康的优质睡眠和一流的坐垫舒适感。

◎产品原料

★ 古八フ++**144

◆ 融合连接

◆ 坚固的表面

◆ 内部的网状结构

	规格参数表
厚度	2-6cm
密度	30 - 140kg/m3
宽	30 - 200cm
K	240cm以内
可提供抗紫外线或阻燃效果

◎性能对比图

High air permeability · No stay of moisture or heat · Cool and pleasant

该产品独特的3-D无节点缠绕的网状弹簧结构,透气性高,即使是恼人的阴雨天也不怕水汽的 停留,在您使用期间时刻保持清爽状态,伴您度过每个愉快的晚上。

This product features unique 3-D node-free winding mesh spring structure and high air permeability. Even in rainy days, you do not have to worry about moisture accumulation. It keeps fresh and cool and accompanies you through

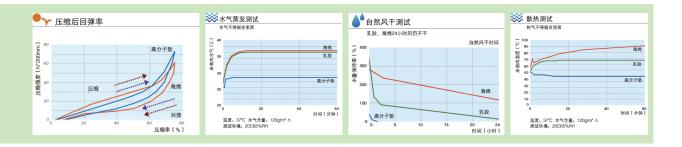

Ease of washing and disinfection · Fast drying 方便清洗消毒

由于产品以高分子材料制成,方便清洗和消毒,其高透气性能让产品快速风干,无论是茶水 飞溅的意外还是小孩子尿床的家常事,只需轻轻一擦就让您省心省力,再无麻烦。

Since the product is made from polymer material, it is easy for washing and disinfection. Its high air permeability makes it fast to dry. Accidental tea splash or bed-wetting of kid will no longer be troublesome, since you only need to lightly wipe it, saving worry and labor.

Quality environment-friendly materials · Hygienic and self-cleaning · Friendly and healthy

优质环保材料 · 卫生自洁 · 亲近健康

现代都市空气污染严重,给家居清洁带来很多的麻烦,而该产品不仅不会吸附粉尘,也不会滋生细菌,更拒绝螨虫的滋生,使霉菌无处藏身,让使用者皮肤时刻保持着健康的状态。 Modern city suffers from serious air pollution, which causes lots trouble for household cleaning. This product will not absorb dust, nor will it have germs growing. And it will reject growing of acarus and leave no places for mildew, so that the users' skin always keeps healthy.

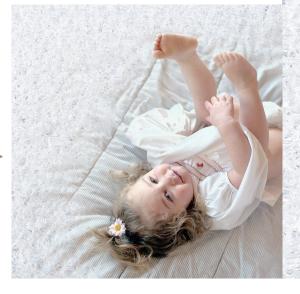

High-memory elastomers · Higher elasticity · Lasting support 高记忆弹性体·弹性更高·支撑持久

据专家特别指出,儿童身高生长与脊椎的生长有着密切的关系,只有健康的脊椎才能促使孩子们身高的正常发展。该产品有着优秀的垫材性能,无论是大人小孩,都能有效支撑身体,减轻脊椎的负担,帮助使用者塑造健康体形。

Experts have pointed out that children's height development is closely related to backbone growth. Only healthy backbone can promote normal development of children's height. This product has excellent matting performance, effectively supporting both adult's and kid's body, reducing load of backbone, and helping the user to build healthy form.

No sinking of cushion Lasting and durable Economical 垫面不沉 · 持久耐用 · 经济实惠

高分子垫坚韧性较同类产品强,支撑力持久,回复能力强,经过长期反复的实验证明,垫面在长期的使用后内芯不会下沉,不会变形,有效地延长产品使用寿命,让你免除频繁换垫子的烦恼。

Polymer mat is tougher than products of the same kind, with lasting supporting power, strong restoring strength.

Long-term repeating experiments prove that the inner core of the mat will no sink or deform after long-term use, which effectively lengthens service life of the product and eliminates the trouble of frequent changes of mat.

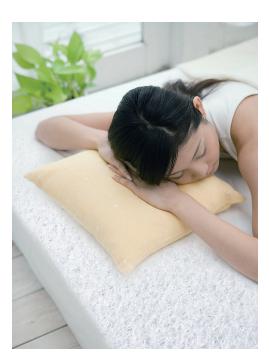

Overall light weight · Light and easy to carry · Ease of maintenance

整体轻量化・轻盈便携・护理简便

高分子材料丝,以无节点缠绕形成网状结构,整体轻量化程度高,便携性高, 拆洗、更换垫套等日常护理更简便。

Polymer material node-free winding mesh spring structure results in overall light weight, ease of carrying, detaching and washing, and ease of daily maintenance work like change of mat cover, etc.

静

Noiseless design · Silent and pleasant 高静音设计 · 宁静怡人

高分子材料三维架构而成的结构符合高静音设计,静音效果良好, 无论如何的辗转反侧都不会有弹簧的金属声音滋扰,每天都让您在 安静的环境下营造甜美梦乡。

Polymer material 3-D structure meets noiseless design, with excellent noiseless performance. No spring metal noise will be produced no matter how frequent you turn, which lets you create sweet dreams in silent environment every day.

Extensive application 应用范围广泛

雅洁丽高分子垫凭借其独特的功能优势和优秀的品质广泛应用于各种要求材质透气、清洁、耐用、环保的产品上。

如:医院护理床垫、家用床垫、宿舍床垫、高铁座椅、轮椅垫、婴儿垫、户外坐垫、宠物垫等。 有潜力在将来的十年,取代传统的床垫、坐垫材料,如海绵,弹簧,山棕,乳胶,充水,充气类。 成为最新一代健康环保垫材。

Yajieli polymer mat relies on its unique functional advantages and excellent quality to be extensively used in various kinds of product requiring air permeability, cleanliness, durability and environmental protection.

such as hospital care mattress, home mattress, dormitory mattress, high-speed railway seats, wheelchair mat, baby's mat, outdoor cushion, pet mat, etc.

In the coming 10 years, it is potential to replace traditional mattress and cushion materials, like sponge, spring, palm fiber, latex, water-filled and air-filled categories.

It becomes the latest generation healthy and environment-friendly mat material.

◎沙发坐垫

◎户外坐垫
